38. Where at an inquiry into an election petition any candidate, other than the returned candidate, claims the seat for himself, the returned candidate or any other party may give evidence to prove that the election of such candidate would have been void if he had been the returned candidate and a petition had been presented complaining of his election.

Recrimination when seat claimed.

39. When at an inquiry into an election petition the Commissioners so order, the Advocate General or some person acting under his instructions shall attend and take such part therein as they may direct.

Attendance of law officers.

Explanation.—The expression "Advocate General" includes also a Government Advocate, or, where there is no Advocate General or Government Advocate, such other officer as the Local Government may appoint in this behalf.

the election of the returned candidate shall be void.

(2) If the Commissioners report that a returned candidate has been guilty by an agent (other than his election agent) of any corrupt practice specified in Part I of Schedule IV which does not amount to any form of bribery other than treating as hereinafter explained or to the procuring or abetment of personation, and if the Commissioners further report that the candidate has satisfied them that—

- (a) no corrupt practice was committed at such election by the candidate or his election agent, and the corrupt practices mentioned in the report were committed contrary to the orders and without the sanction or connivance of such candidate or his election agent, and
- (b) such candidate and his election agent took all reasonable means for preventing the commission of corrupt practices at such election, and
- (c) the corrupt practices mentioned in the said report were of a trivial, unimportant and limited character, and
- (d) in all other respects the election was free from any corrupt practice on the part of such candidate or any of his agents,

then the Commissioners may find that the election of such candidate is not void.

Explanation.—For the purpose of this sub-rule “treating” means the incurring in whole or in part by any person of the expense of giving or providing any food, drink, entertainment or provision to any person with the object, directly or indirectly, of inducing him or any other person to vote or refrain from voting or as a reward for having voted or refrained from voting.

41. (1) At the conclusion of the enquiry the Commissioners shall report whether the returned candidate, or any other party to the petition who has under the provisions of these rules claimed the seat, has been duly elected, and in so reporting shall have regard to the provisions of rule 40.

(2) The report shall be in writing and shall be signed by all the Commissioners. The Commissioners shall forthwith forward their report to the Governor General who, on receipt thereof, shall issue orders in accordance with the report and publish the report in the Gazette, and the orders of the Governor General shall be final.

42. If either in their report or upon any other matter there is a difference of opinion among the Commissioners, the opinion of the majority shall prevail, and their report shall be expressed in the terms of the views of the majority.

43. Where any charge is made in an election petition of any corrupt practice, the Commissioners shall record in their report—

- (a) a finding whether a corrupt practice has or has not been proved to have been committed by any candidate or his agent, or with the connivance of any candidate or his agent, and the nature of such corrupt practice, and
- (b) the names of all persons (if any) who have been proved at the inquiry to have been guilty of any corrupt practice and the nature of such corrupt practice with any such recommendations as they may desire to make for the exemption of any such persons from any disqualifications they may have incurred in this connection under these rules.

PART VIII.

SPECIAL PROVISION.

ACCOUNTS AND FINANCE.

ESTIMATES OF ACCOUNTS.

Simla, the 14th June 1920.

No. 1716-F.—It is hereby notified for general information that with reference to the provisions of section 30, Government of India Act, 1919, His Majesty's Government have decided to make a contribution of £136,500 per annum, with effect from the current financial year towards the cost of the administration of the India Office. This amount is made up as follows:—

	£
(i) Salary of the Secretary of State and Parliamentary Under-Secretary	6,500
(ii) Estimated cost of the portion of the India Office establishment which is employed on administrative and political, as distinct from agency, functions	130,000

2. A contribution of £40,000 per annum on account of the cost of the India Office has hitherto been made in pursuance of the recommendations of the Welby Commission, so that the additional contribution which will be paid in consequence of the passing of the Government of India Act, 1919, is £96,500. The amount shown against item (ii) has been adopted on the recommendation of a Committee appointed by His Majesty's Government to assess the cost of the India Office establishment employed respectively on agency and non-agency functions; and it will be in force for 1920-21 and the following four years, at the end of which period steps will be taken to re-assess the contribution on the information then available.

3. As a result of this settlement the annual debate on Indian affairs in the House of Commons will take place not, as hitherto, on the presentation of the East India Accounts, but on the occasion when the Civil Service estimates, in which the contribution towards the cost of the India Office is included, are brought up for consideration in Committee of Supply.

RESOLUTION.

PENSIONS AND GRATUITIES.

The 18th June 1920.

No. 1003-C.S.R.—In resolution No. 714-C.S.R., dated the 10th May 1920, it was announced that with a view to the exact scope of the new pension rules published in resolution No. 1085-E.A., dated the 15th November 1919, being made clear the Government of India intended to publish those rules in the form of amendments to the Civil Service Regulations. The accompanying amendments to the Regulations are now published for general information.

2. At the end of Schedule B showing appointments carrying additional pensions published with resolution No. 1085-E.A., dated the 15th November 1919, it was stated that any other pensionable appointment not included in the schedule, the minimum substantive pay of which is not less than Rs. 1,500 a month, would qualify for an additional pension on the lower

scale. This statement did not, however, correctly interpret the orders of the Secretary of State. The Departments in which appointments had already been specified in Schedule B had been considered as a whole and those appointments which were regarded as deserving an additional pension had already been definitely included. It was not the intention of the Secretary of State that appointments in such Departments, even though carrying a minimum substantive pay of Rs. 1,500, should automatically become entitled to the special additional pension. This has been made clear in the rules now published. But at the same time the Secretary of State has granted to the Government of India the power to admit appointments in such Departments, the minimum substantive pay of which is not less than Rs. 1,500 a month, and the Government of India will be prepared to consider any such cases on their merits.

ORDERED that the Resolution be communicated to the several Departments of the Government of India (including the Financial Adviser, Military Finance, and the Board of Industries and Munitions); to all Provincial Governments and Minor Local Governments; to the Comptroller and Auditor General; to the Heads of Departments subordinate to the Finance Department; to all Accountants-General; to the Comptroller, Assam; to the Chief Auditors of State Railways and Government Examiners of Railway Accounts; to the Examiner of Accounts, Military Works Services; to the Examiner of Press Accounts; to the Controller of War Accounts; to the Audit Officer, Delhi Province, and to the Examiner of Customs Accounts.

ORDERED also that it be published in the *Gazette of India*.

2. In exercise of the power conferred by sub-section (1) of section 6 of the said Act, the Governor in Council is pleased to establish union boards for each of the unions hereby declared and to fix 9 as the number of members of each union board.

3. In exercise of the power conferred by sub-section (2) of section 6 of said Act, the Governor in Council is pleased to direct that one-third of the members of each union board shall be appointed by the District Magistrate on the grounds that the electors are inexperienced and that such appointment is necessary for the due representations of minorities.

No. 4267 L.S.-G.—The 5th January 1920.—In exercise of the powers conferred by clause (e) of sub-section (2) of section 101 of the Bengal Village Self-Government Act, 1919 (Bengal Act V of 1919), the Governor in Council is pleased to make the following rules:—

Rules under the Village Self-Government Act, 1919, regulating the conduct of meetings of Union Boards and the method of forming a quorum.

MEETINGS.

1. Meetings shall be held at the office of the Union Board or at such other place as the President may from time to time determine.

2. Meetings shall be either ordinary or special.

3. An ordinary meeting of the Union Board shall be held once every month on a day to be selected by the members of the Board at a meeting: Provided that if for any reason it is deemed inconvenient to hold any such meeting on the day thus selected, the President may fix another day for that particular meeting.

4. A special meeting of the Union Board may be called at any time by the President.

5. The President shall call a special meeting on a requisition signed by not less than three of the members. If he fails to do so within thirty days after any such requisition has been made, the meeting may be called by the members who signed the requisition, in the manner laid down in rules 8 and 10.

6. The following subjects shall be dealt with at special meetings only:—

(a) Scale of establishment and salaries (section 36).

(b) Imposition of union rate (section 37).

(c) Applications for the revision of assessment (section 39).

(d) Annual budget estimate.

(e) Removal of the President, the Vice-President or a member [sections 12 (1) (c) and 16].

(f) Salaries, appointment and dismissal of chaukidars and dafadars (sections 20 and 21).

(g) Loans.

7. All other subjects which come within the province of the Union Board may be dealt with at either ordinary or special meetings.

NOTICES OF MEETINGS.

8. At least seven days' notice of all meetings shall be given to every member: Provided that the annual budget estimate shall be circulated to all the members of the Board at least a fortnight before the date fixed for its consideration.

9. Accidental failure of service of notice on any member shall not invalidate the proceedings of any meeting.

10. The notice shall set forth clearly and fully the business to be transacted at the meeting.

QUORUM AND CONDUCT OF PROCEEDINGS AT MEETINGS.

11. Three of the members of the Union Board shall form a quorum. If at the time appointed for the meeting or within one hour thereafter, a quorum is not present, the meeting shall stand adjourned and shall be called again on a future day to be appointed by the President. The members present at such adjourned meeting shall form a quorum, whatever their number may be.

At special meetings the quorum shall be formed by at least one-half of the number of members; if, however, the board consists of 7 or 9 members, 4 or 5 members respectively shall form the quorum.

12. The President or, in his absence, the Vice-President (if any) shall preside at every meeting, and in the absence of both the President and the Vice-President, the members shall choose some one of their number to preside:

Provided that the provisions of this rule and of rule 11 shall not apply to a meeting convened for electing a President or a Vice-President.

13. At ordinary meetings the business shall be conducted in the following order:—

- (a) The minutes of the last ordinary meeting and of any special meeting held since shall be read and, if approved as correctly entered, shall be signed by the President of such meeting.
- (b) Business postponed from the last ordinary meeting shall be considered.
- (c) A progress report of works shall be laid before the members.
- (d) Accounts and statements shall be considered and passed.
- (e) Motions and amendments duly moved and seconded shall be discussed.

14. At a special meeting, only the business for which the meeting was called shall be considered.

15. Notwithstanding anything contained in rules 13 and 14, it shall be competent for the Union Board at a meeting to transact any business other than that set forth in the notice under rule 8, if the majority of the members present agree to do so.

16. Every motion and amendment duly moved must be seconded, and until seconded, no debate thereon shall take place.

17. Every motion or amendment duly made and seconded and pressed to a division shall be reduced to writing and signed by the proposer and seconder before being put to the vote. Every such resolution or amendment shall be recorded in full in the proceedings, together with the number and names of voters for and against it.

18. The President of the meeting may, for reasons to be recorded in writing and entered in the minutes of the proceedings,—

- (a) rule that a motion or amendment is illegal or out of order, and
- (b) make such alterations in a motion or amendment as shall in his opinion render it legal and in order;

and may in case (a) refuse to put the motion or amendment to the meeting, and in case (b) refuse to put the motion or amendment to the meeting unless and until the proposer and seconder accept and sign the alterations made; and the decision of the President shall be final.

19. After a motion has been moved and seconded an amendment may be moved at any stage of the debate thereon.

20. On the discussion being concluded, in the event of several amendments having been proposed, the President of the meeting shall put the last amendment to the vote first; if it is negatived he shall put the last preceding amendment; and lastly, the first amendment; and if all the amendments are lost the original proposition shall be put to the vote.

21. All questions which may come before the meeting shall be decided by a majority of votes. In case of equality of votes, the President of the meeting shall have a second or casting vote.

22. Voting by proxy is prohibited; and no member shall vote upon any motion or amendment unless he be present in person at the time when it is put to the vote.

23. When any business of which notice has not been given is considered at a meeting, the decision recorded or resolution adopted at such meeting shall be of no effect unless and until it is confirmed at the next succeeding ordinary meeting, or at a special meeting called expressly for the purpose.

24. It shall be competent to any member to move the adjournment of the debate or of the meeting. When such motion is seconded it shall be put to the vote. No motion for adjournment shall be admissible which proposes an adjournment beyond the next ordinary meeting.

25. The members shall be informed of the date of an adjourned meeting by a fresh notice. Rule 8 shall not apply in this case.

26. An adjourned meeting is not competent to transact any business save that which the original meeting left unfinished.

MISCELLANEOUS.

27. Unless not less than two-thirds of the members consent by signing a requisition, no subject once finally disposed of can be reconsidered within six months.

28. The minutes of proceedings shall be recorded in the vernacular.

29. The minutes of proceedings shall be entered in a book to be kept for the purpose, and shall be signed by the President of the meeting and such book shall be open to the inspection of the public.

(c) The right-hand half page of the said form shall be cut off and sent to the authority from whom the imprest is held and the counterfoil retained by the disbursing officer. The said account shall be supported by the necessary vouchers numbered and attached to it, so as to correspond with the order of the entries in column 2 "voucher number" of District Engineer's Form No. 3.

14. Procedure to be followed in the District Engineer's office:—

- (a) The District Engineer shall, after carefully scrutinizing the account with the vouchers as regards the propriety of the payments, the clearness and accuracy of the entries, the sufficiency of the vouchers and the totals of the accounts, shall reimburse the sub-imprest-holder the exact sum expended so as again to bring the imprest cash in hand up to the original amount. The sub-vouchers shall be defaced by him so that they cannot be used again.
- (b) The payments appearing in the subordinate's imprest account shall in abstracted form, be entered in the District Engineer's imprest cash-book. The amount remitted to his subordinate shall be entered in red-ink in the counterfoil of his own account.

15. Every cheque in favour of the District Engineer shall be made payable to "order" and shall be compared by him with the imprest bill in payment of which it is issued at the time of endorsing the cheque for encashment.

The amount of each recoupment shall be separately remitted to the subordinate and not with other dues, and shall be checked by the District Engineer once a month with money order acknowledgment or separate receipt, which shall be obtained at once, the entry in the imprest cash-book being initialled in token of the check.

16. The District Engineer's imprest cash account shall be closed on the 27th of every month, to admit of the transactions up to that date being included in the month's account of the District Board, provided the expenditure does not fall below Rs. 10 which is the minimum amount for which cheques are issued on the Treasury.

If a mistake be made, it shall be corrected by crossing out the incorrect words or figures and the correction thus made shall be initialled.

The entries in the measurement book should, if possible, be made in ink, but when this is not possible and the entries have to be made in pencil, the pencil entries shall not be inked over, but left untouched. The contents or area shall, however, be invariably inked in.

(b) Every measurement shall be recorded by the officer by whom it is actually made and bear his signature and the date. The practice of entering measurements in note-books or on slips of paper and afterwards copying them into measurement books is prohibited.

(c) The measurement book shall be submitted to the District Engineer's office where an arithmetical check of the calculation will be made by the Accountant.

20. To enable the Overseer or other officer in charge of works to submit his measurement book with the bills or accounts of the District Engineer's office, two or more books for his use shall be provided. The measurement books, after they are completed, shall be returned to the District Engineer's office for record.

21. The measurement book shall be the basis of all accounts of quantities whether of work done by daily labour or by piece or by contract or of materials received which have to be counted or measured. From the measurement book all quantities shall be clearly traceable into the document on which payments are made and the reference to the vouchers on which the quantities are entered for payment as well as the date of entry shall be given by endorsement on the original entries. The measurement book shall accompany the bills to the District Engineer's office and no contract certificate or bill shall be passed without crossing off the connected entries in the measurement book. The document on which payment is made shall invariably bear a reference to the number and page of the book in which the detailed measurements are recorded.

22. (a) When note or measurement books are issued, the name of the subordinate to whom they are issued and the date of issue will be noted on the book and attested by the signature of the head of the office. All the measurement books shall be numbered serially. The issues and return of all measurement books shall be entered in a stock book (Form No. 5).

(b) The Engineer will be responsible for seeing that measurement books are carefully kept and measurements properly recorded and that they are complete records of each kind of work done. He shall also see that the books are regularly returned to his office.

WORKS EXECUTED BY CONTRACT.

Tenders.

23. In the case of all works executed by contract, tenders shall ordinarily be invited in the most open and public manner possible, whether by advertisement in the local newspapers or by notices in the vernacular posted in public places.

A schedule of tenders will be kept in Form No. 6.

AGREEMENTS.

24. For every work given out on contract, an agreement on stamped paper shall be taken and executed in accordance with rule 102 (Part V—Transfer of Property and Contracts).

SECURITY.

25. As a safeguard against possible loss to the District Board, security for the due fulfilment of a contract shall, as a rule, be taken from the contractor and such security shall be either in the shape of a lump sum or a deduction of 10 per cent. made from the payments due from time to time on account of work done.

NOTE.—The securities so taken will also serve to cover possible over-payments which may be detected on check measurement.

CONTRACT CERTIFICATES.

26. (a) Payments for work done or materials supplied by contractors shall be made as a rule monthly on a contract certificate in Form No. 7 showing quantities and value of work executed up to date. Such payments shall be treated as payments on account. No payment shall be made on these bills and certificates unless supported by an acknowledgment by the officer or subordinate concerned that the work has been efficiently done or the supplies received, as the case may be.

(b) On the completion or cessation of the work, the final adjustment of the contractor's claim shall be made on bills printed on yellow paper and the payment shall be made on the contractor adding on the bill a certificate in his own handwriting or attested by his thumb impression that the payment is in full settlement of all demands.

(c) When contractors or suppliers are paid up at once on completion of the work or supplies, Form No. 8 may be used for the bill.

NOTE.—Contract certificates shall always be prepared in duplicate, one being stamped original and the other duplicate.

CHECK OF CONTRACT CERTIFICATES IN DISTRICT ENGINEER'S OFFICE.

27. Before a bill or certificate is certified as correct by the District Engineer, his Accountant shall check it in all its details comparing it with the measurement books, the sanctioned estimate, agreements, records of quantities and rates of materials supplied from stock or from materials at site and records of previous payments made on account of the same work, etc. Before signing the certificate of correctness, the District Engineer shall satisfy himself that all necessary checks have been applied by his office.

NOTE.—See District Board account rule 175.

28. (a) Certified copies shall be kept in the office of the District Engineer of all bills and certificates. In the case of those to be paid in the District Board's office, the original, after being certified to as correct by the District Engineer, shall be returned to the payee for presentation at the District Board's office for payment, the certified copy being sent by the District Engineer direct to the District Board's office by way of advice.

(b) It is not necessary that both the original and the certified copy of a bill shall be receipted by the payee, but the cheque issued in payment of the bill shall be specified on the certified copy, which shall then be returned without delay to the District Engineer for his guidance in respect of further certificates. The original, which shall be receipted by the payee, shall after payment be filed in the District Board's office as a voucher for payment.

PAYMENT TO CONTRACTORS.

29. Payments to contractors and suppliers shall be made by means of cheques drawn in their favour by the District Board's office. Such cheques shall be delivered to them direct and not through the Overseer.

(See District Board rules 173 and 174.)

CONTRACTORS' LEDGER.

30. The accounts relating to contracts are to be kept as personal accounts and a separate folio shall be opened in the contractors' ledger (Form No. 9) for each contractor. The entries in the debtor side show the payments made to the contractors and those on the creditor side the value of work done as shown in the contract certificates passed from time to time. The account shall embrace all transactions to which the contractor is a party whether relating to one or several works or to materials purchased from him. The number and amount of each passed bill and certificate, the name of the work and the number and amount of each cheque shall be shown in the ledger. The value of materials made over or labours supplied to a contractor shall be debited to his account and a receipt for the value thereof taken from him in support of the debit. A copy of the account shall be furnished to the contractor whenever he desires it. At convenient intervals, the contractor should be asked to look at this account in the ledger and sign it in token of his acceptance of its correctness.

NOTE.—Security deposits shall not find a place in the contractors' ledger.

POSTING THE LEDGER.

31. The ledger shall be posted as bills are passed by the District Engineer, the District Engineer's Accountant shall not pass contractors' bills without referring to the ledger. The ledger shall be closed and balanced monthly.

When there are balances due to a contractor on more than one certificate, the amount due on each certificate shall be detailed in the ledger.

When there are balances outstanding from previous months not affected by the month's transactions, a list of such balances shall be given.

The District Engineer's initials shall be obtained below each of these entries in token of his having satisfied himself that the balances are carried forward correctly.

REGISTER OF BILLS.

32. On receipt in the Engineer's office of a contract certificate, nominal muster-roll, establishment or other bill for payment, it shall be entered in the register of bills (Form No. 10) in which the date of passing for payment and other particulars shall also be entered.

ADVANCE AND DEPOSITS.

33. (a) In the District Fund Accounts, all advances for works will be charged to the separate suspense account of advances which is credited with the value of work done, supplies received or labour performed, as the case may be.

(b) All advances to contractors and others shall be made from the District Board's office and all deposits shall be paid direct into the Treasury, but in special cases, the Board may authorize the District Engineer to make such petty advances, within prescribed limits, as may be considered necessary. The accounts of advances and deposits to be kept in the District Engineer's office will, therefore, be but memoranda for the guidance of a District Engineer in issuing certificates for payment. The accounts shall be kept in District Board Form Nos. 36 and 37, a separate folio being opened for each contractor. The accounts shall be balanced every month and signed by the District Engineer.

(c) The balances of the advance and deposit ledgers kept in the District Engineer's office shall be agreed monthly by the District Engineer's Accountant with those kept in the District Board's office.

WORKS EXECUTED THROUGH DEPARTMENTAL AGENCY.

Muster-roll.

34. When work is done by daily labour through departmental agency, the basis of the account shall be the muster-roll and when payments are not made daily, the muster-roll shall be a nominal one, that is, names of the labourers shall be entered in it. This shall be kept in Form No. 11. The nominal muster-roll being the initial record of the labour employed each day on a work, shall be written up daily by the subordinate deputed for the purpose each morning before the labourers begin work.

35. An extract from the measurement book shall ordinarily be endorsed on the muster-roll and the quantity of work turned out shall be compared with the cost of the labour employed so as to afford satisfactory evidence that the outturn of work gives a sufficient return for the money spent. Any deficiency in this respect shall be noticed by the paying officer.

36. If, however, the work is of a petty nature and in consequence not susceptible of measurement, a certificate in lieu of the above shall be furnished by the officer in charge of the work to the effect that the work turned out is worth the amount paid for it.

37. The muster-roll shall be closed immediately after the close of the week or other period for which it is kept and the labourers paid as soon after as possible.

The payment shall be made in the presence of the officer of highest standing available, who shall initial with date against the group of labourers paid on that date. The amount paid on each date shall be noted in words as well as figures at the foot of the muster-roll (Form No. 55). The disbursement certificate at the foot of the muster-roll shall then be signed by the officer witnessing the disbursement.

38. Wages not claimed within three months of their falling due shall not be paid without the written orders of the District Engineer.

CONTRIBUTION WORKS.

39. When any work is to be carried out from contribution by Municipalities or private persons, the contribution shall always be recovered and credited in the accounts before the work is commenced. The amounts of the contributions shall be remitted into the Treasury in full and no portion shall be utilized for expenditure on the work, which should be met like that on purely local fund works.

CHECK MEASUREMENTS.

40. All important works executed under the supervision of the District Engineer shall be checked and measured by him.

Road metals and other materials collected on roadside shall be checked, measured after the whole collection on the road by the same contractor is complete. The fact of check measurement shall invariably be noted under his signature with date or dates of check measurement both against the measurement entries in the measurement book and in the contract certificates on which final payment is made.

(See rule 60.)

15. Tools and plant	57-58
16. Road metal	59
17. Check of road metal returns in the District Engineer's office	60-61

CLASSIFICATION OF STORES.

41. The stores of the District Engineer's office are divided into two classes: "tools and plant" and "stock." The head "tools and plant" comprises—

Tools.
Plant and machinery.
Scientific instruments and drawing materials.
Camp equipage.
Live-stock.
Office and bungalow furniture.

"Stock" may conveniently be classified under the following sub-heads:—

Building materials.
Timber.
Metal.
Iron materials.
Miscellaneous.

NOTE.—Road metal has been dealt with separately—see rules 59 to 61, indent register of stores.

42. All orders for supplies required for miscellaneous works to be executed shall be issued in Form No. 12 duly signed by the District Engineer. The District Engineer shall see that the persons or firms concerned furnish bills for payment immediately after the close of the month or the completion of the work, as the case may be, supported by the order. But one bill (Form No. 13) shall ordinarily be submitted for all supplies made by the same person during the month supported by the indent orders. The date of completion of the supply, the date of receipt of the bill and the date of payment shall be promptly noted on the office copy of the indent by the Accountant, as each stage will occur.

REGISTER OF PURCHASES.

43. Stores purchased shall be entered as soon as they are received and acknowledged by the subordinate concerned, in the register of purchases (Form No. 14). Before passing the bill for stores supplied, the District Engineer shall see that the quantity of stores has duly been entered in this register and the printed certificate regarding the supply of stores on the bill has been signed by the subordinate concerned. He shall also initial the entries in the register. The District Engineer shall review the register periodically to see that there is no avoidable delay in the payment of firms' bills for supply of materials.

STORES, HOW TO BE CHARGED IN ACCOUNTS.

44. The general principle governing the treatment in accounts of the materials required for works is that expenditure should, as far as possible, be at once charged to the work concerned. In accordance with this principle, all payments on account of materials intended to be used for a work shall be charged against the work.

In exceptional cases, if materials cannot be charged against a particular work, the cost of these materials shall be charged in the account of advances, a sub-head being opened for each description of material.

MATERIALS AT SITE.

45. When materials are purchased by or through the agency of the Board and kept at site of work for use on the work under the care of some subordinate or the contractor who is to be paid the charges for labour only, the details of the quantities of materials received and the values thereof shall be noted in the materials at site accounts (Form No. 15). When any portion of the materials is used on the work, the quantity and the value thereof shall be noted in the issue column of the materials at site account and finally charged to the work.

The balance of unused materials shown in the site material account of a month shall be carried forward in the following month's accounts.

SURPLUS MATERIALS.

46. After the work is completed, any balance left in the accounts under the head "Materials at site" should always be represented by a corresponding quantity of unused material. Such balance shall be disposed of according to the discretion of the District Engineer and the value credited to the head "Materials at site."

RESERVE STOCK.

47. In the case of districts in which it is found to be indispensable to have a stock of materials for efficient working, a certain maximum value of reserve stock shall be fixed by the Board with the approval of the Government, at the lowest figure compatible with efficiency. Stock may then be purchased up to the limit of the value thus fixed and shall be accounted for in forms and registers to be prescribed by the Accountant-General, Local Audit Department, according to local requirements.

OLD STORES.

48. Materials received from buildings, culverts, bridges, etc., dismantled or undergoing repairs will either—

- (i) be brought on the stock accounts (Form No. 15) of the subordinate concerned, or
- (ii) sold at once.

49. Materials which are serviceable shall be utilized for works in progress under the orders of the District Engineer. When transferred to some work in progress, they shall be shown as a receipt in the store accounts of the subordinate in charge of the work.

(See rule 72.)

LOSS OF STORES.

50. (a) When stores are lost, stolen or destroyed, the fact shall at once be reported by the District Engineer to the Board for orders.

(b) The value of such stores shall not be written-off without the sanction of competent authority.

(See District Board account rule 21.)

UNSERVICEABLE STORES.

51. When stores and tools and plant of any kind become unserviceable, or when on taking stock any discrepancy is discovered between the book balance and the quantity actually in hand, a survey report (Form No. 16) shall be prepared and submitted to the Board with the District Engineer's recommendation as to their disposal.

SALE OF STORES.

52. Serviceable stores shall not ordinarily be sold. If, however, they cannot be utilized in any work, they may be sold by public auction with the sanction of the Board.

(See rule 95, part V.)

SALE OF UNSERVICEABLE STORES.

53. On receipt of the survey reports if the Board decide to sell the unserviceable stores, they shall be sold by public auction under the supervision of the District Engineer.

STORE ACCOUNTS TO BE MAINTAINED BY SUBORDINATES.

54. A register showing the receipts and issues of materials shall be maintained by every subordinate in Form No. 15. This register will show only quantities and not value. Separate pages shall be set apart for each work.

55. Every subordinate shall, on the 1st of every month, submit to the District Engineer a separate statement for each work in Form No. 15, showing the receipts, issues and balances of all materials appertaining to it during the previous month. For works in which there have been no receipts or issues of materials during the month, he shall submit a return showing simply the names of the works and stating that during the month there have been no transaction for material on them.

VERIFICATION OF MATERIALS AT SITE BY THE DISTRICT ENGINEER.

56. Once a year, a statement showing the quantity and the value of materials at site charged to works shall be drawn up. [The District Engineer shall verify the balances of materials at site of work by actual counting or measurement as the case may be and certify if the materials are in good condition. In cases where the materials actually at site of works, differ from the balances shown in the materials at site accounts, he shall report the matter to the Board for orders.]

When a work is closed, the value of the unused materials, if any, lying at site of the work shall be debited to "advances" by credit to the work concerned.

TOOLS AND PLANT.

57. The register of tools and plant shall be kept in Form No. 17; the expenditure on tools and plant shall be entered in the register in the same manner as works and repairs. Each item, whatever may be the amount, shall be shown in detail, and at the end of every year account shall be taken by an officer appointed by the Chairman, who shall certify the fact in the body of the register, any difference in balance at the end of the year between the figures of the columns "as per this return" and "actual as counted" being fully explained.

58. A separate account shall be kept of tools temporarily lent to contractors or in use by the subordinates. When no longer required, they will be received back by the store-keeper and transferred to the account of articles in store.

ROAD METAL.

59. A statement of receipts, issues and balances of road metal on each road shall be prepared monthly from the measurement book by the subordinate in charge of the road in Form No. 18 and forwarded to the District Engineer's office where it will be checked by the Accountant, passed by the District Engineer and filed. In this statement, the transactions of each mile shall be shown separately. The balance of metal in each mile shall be shown monthly whether there are any transactions on it during the month or not.

(See rule 40.)

CHECK OF ROAD METAL RETURNS IN THE DISTRICT ENGINEER'S OFFICE.

60. The quantities of road metal received or expended during a month as shown in the road metal returns shall be checked by the District Engineer's Accountant with the respective vouchers in which the charges for collection and consolidation have been paid. The discrepancies, if any, shall be promptly reconciled by reference to the subordinates concerned. The number and date of the vouchers in which the charges for collection and consolidation were paid shall be noted in columns 4 and 7 of the return against the item concerned by the Accountant.

61. Road metal should not ordinarily be transported from one place to another; it should be used on the spot where it was originally collected, except in the case of abandoned works. The collection of metal shall not be simultaneously done in the same or adjoining miles of a road.

CHAPTER V.

ACCOUNTS OF WORKS.

						Rules.
1.	Works abstract	62
2.	Register of works	63-67
3.	Amounts due to contractor	68
4.	Amounts due from contractor	69
5.	Materials at site	70-71
6.	Write-back orders	72
7.	Workshop accounts	73
8.	Work register and muster-roll	74-75
9.	Manufacture accounts	76-79

62. (a) The expenditure on each work will be brought together from the certified copies of bills passed by the District Engineer and entered in the "works abstract" (Form No. 19), which shows the expenditure on the work under different sub-heads. In the case of works costing less than Rs. 2,500, it is not necessary that the expenditure should be shown under so many sub-heads and half sheets (Form No. 19-A) may be used. The abstract shall be supplemented by an account showing materials at site (Form No. 15).

(b) When finally completed in all respects, the work abstract shall be examined and signed by the District Engineer and any explanations necessary will be called for from the subordinates concerned.

REGISTER OF WORKS.

63. As soon as estimates are sanctioned, the amount of each sanctioned estimate, the allotment for the year and name of the work shall be entered in the register of works (Form No. 20). Any additions and reductions in the appropriations made during the year shall also be noted therein, each sub-head in the abstract estimate shall be numbered and the corresponding numbers entered in the register thus:—

- (1) excavation;
- (2) earthwork;
- (3) soling, etc.

NOTE.—The register of works shall be neatly indexed for ready reference.

64. In the case of original works and repairs, no item of estimate under Rs. 200 shall be separately detailed in the register of works and no work or repair estimated to cost less than Rs. 2,500 shall be accounted for by sub-heads, except in cases where the District Engineer may desire it.

65. When work done is actually measured and paid for, the expenditure under each head shall be entered in the approximate column. These particulars shall be posted from the works abstract.

66. When in case of emergency or to prevent loss or damage, expenditure is incurred on items of work for which provision has not been made in the sanctioned estimate for the work, the amount shall be separately shown in the work register, and not charged off against any other sub-head on which there may be a saving, and if sanction has not already been obtained in accordance with rule 31, part IX, it shall be applied for at once.

67. Monthly progressive totals of the expenditure shall be made in the register of works. The monthly total of expenditure will be written below the monthly total of progress under each sub-head and the rate for each sub-head worked out every month.

AMOUNTS DUE TO CONTRACTOR.

68. Amounts deducted from the bill for future payment shall be entered in the column "due to contractor" and when finally paid a "minus" entry shall be made in the same columns in order to reduce the liability.

AMOUNTS DUE FROM CONTRACTOR.

69. (a) If materials are purchased on behalf of contractors and made over to them, the value of materials shall be entered in the column "due from contractor." When the value is recovered by deduction from the contractors' bills, the amount shall then be deducted by a minus entry in the column "due from contractors."

(b) When on account of bad work by a contractor, it is necessary to incur expenditure for the same work through departmental agency the amount shall be entered in the column "due from contractor" and not under the sub-head to which the work belongs. Similarly the value of work not measured, but paid for, or any other similar amounts will be entered in the column "due from contractor."

When the contractor's next bill is received, the amount shall be deducted from the total of his bill, but shall be included in the register of works under the appropriate sub-head and the "total value of the work done" and deducted again as "due from contractor," a minus entry being made in that column.

NOTE.—All minus entries in the register of works shall be made in red ink.

MATERIALS AT SITE.

70. When materials are purchased for department works or for works for which the contract is for labour only, the value of such materials shall be entered in the column for "materials at site." When actually used, and not before, the value of the materials so used shall be included in the quantity of work done under the appropriate sub-head. The value shall then be deducted from the total again by a minus entry under "materials at site" which will thus only show the balance of unused materials.

SEE RULE 45.

71. When a work is completed, a double line in "red ink shall be ruled below the last entry, and the following note made:—"Work completed and completion report forwarded to the Chairman with No. , dated ."

WRITE-BACK ORDERS.

72. (a) Adjustments in the accounts of works shall be made—

(i) On the transfer of materials from one work to another and (ii) on the discovery of an erroneous charge which should, in a previous month, have been debited to some other estimate.

(b) The officer initialling the adjustment shall fill in an order for a write-back (Form No. 21) and forward it to the District Engineer's office where it shall be completed and approved by the District Engineer. Necessary entries shall then be made in the work abstract by District Engineer's Accountant.

(c) The order for the write-back shall then be sent to the Board's office for necessary corrections in the register or works bills (District Board Form No. 47).

WORKSHOP ACCOUNTS.

73. The Engineer or officer in charge of the workshop shall keep up a stock book (Form No. 22) of stores, apparatus, fittings, etc., received for use in the shop. This register shall be balanced and the stock, etc., in hand verified by the officer in immediate charge of the shop at such intervals as the Board may prescribe, but not less than once a year.

NOTE.—See rules 228 to 231 of the District Board account rules.

WORK REGISTER AND MUSTER-ROLL.

74. To enable a check to be kept upon work done in the workshop, the officer-in-charge shall keep up a work register in Form No. 23. He shall also keep up a muster-roll (Form No. 11) of the workmen.

75. The workshop stock book and the work register shall be examined not less often than once a month by the District Engineer or other officer in charge of public works, who shall sign the register in token of his having made this examination. This officer shall also at frequent and unexpected intervals check the muster-rolls.

MANUFACTURE ACCOUNTS.

76. (a) The manufacture or collection of materials shall, in all cases, be covered by an estimate showing the proposed outlay and the material to be received as outturn.

(b) Accounts of the manufacture or collection of materials will be rendered in works abstract exactly as accounts of works. In order to render these accounts intelligible, it will be necessary to be very careful to keep the account of each operation in a separate works abstract.

77. The outlay shall, in all cases, be shown under such sub-heads as will admit of direct check; for instance, in the manufacture of bricks, the sub-heads may be (1) moulding, (2) loading, (3) fuel, (4) unloading and sorting. In the manufacture of lime, the sub-heads may be (1) limestone or other material, (2) fuel, (3) labour in burning and so on in each different kind of manufacture. The sub-heads shall be fixed and defined so as to afford an opportunity of comparing the results of similar operations.

78. The quantity of material turned out shall be shown in the works abstract. The materials turned out will be priced at the estimated rates. The differences between the actual outlay and the value of the outturn shall be reported to the Board with the District Engineer's explanations and recommendations for orders. The expenditure of raw material will, of course, not be exactly covered in quantity by the outturn of manufactured goods; but care should be taken to see that the wastage is as small as possible.

79. The account of every operation shall be closed at least once in every year at the end of the working season, notwithstanding that the operations, such as brick making, may be estimated from year to year. In such cases, the operations of each season shall be treated as a separate work.

CHAPTER VI.

NOTES.

1. The cash transactions of the District Engineer and his subordinates will be recorded in this simple form, which is kept in duplicate.

2. Each officer or subordinate with whom an imprest account is to be opened receives at starting, from the District Board or District Engineer, a round sum as a standing advance or imprest, which is at once entered in the account; the disbursements from this advance are entered daily as they are made, clearly and in full detail; and from time to time, as the imprest-holder finds it necessary, the account is closed and balanced, the right-hand half-page is cut off and sent to the officer from whom the imprest is held, the counter-foil being retained by the disbursing officer. This account is supported by the necessary vouchers numbered and tacked on so as to correspond with the order of the entries in column 2, "Voucher No." The officer to whom the account is submitted, after carefully scrutinising the account in regard to the propriety of the payments, the clearness and accuracy of the entries, and the sufficiency of the vouchers, reimburses the imprest-holder the exact sum expended so as again to bring the imprest cash in hand up to the original amount.

3. The account will contain no entries of receipts other than recoupments of expenditure, nor any entries of expenditure, other than those paid directly by the imprest holder himself from the amount of his imprest; consequently the fixed standard of imprest should never be exceeded.

4. To facilitate the extracting of the charges shown in the imprest cash book, column 6 is provided to show the head under which each charge has to be classed. In order to prepare the charges for entry in the cash book, the entries will be abstracted (on the back of each working form) under several heads in red ink by the District Engineer.

District Engineer's Form No. 9.

NOTES.

1. The contractor's ledger is of simple form, showing on the Dr. side the actual advances or payments to contractors, and on the other the value of work done as per certificates. There is a ledger head for each contractor undertaking important works or supplies. For petty contractors there will be but one ledger head, the entries under which will be based upon the totals of the petty contract accounts of subdivisions.

2. When there are balances due to a contractor on more than one certificate, the amount due on each certificate should be detailed in the ledger.

3. When there are balances outstanding from previous month, not affected by the month's transactions, a list of such balances should be given.

NOTES.

1. This form will be used by vendors for materials supplied by them.
2. Dealers should be encouraged to send in their own bills in this form, and be supplied with printed forms for the purpose.
3. Purchases of materials are charged either to Tools and Plant or to specific works, and it will be necessary to obtain a separate bill for each of these classes of articles when one dealer supplies all.
4. The purchases for each particular work will be collected and accounted for in the work abstract of that work.
5. In making payments for materials, care should be taken that the District Engineer or his assistant has taken actual delivery of the stores (see column 7 in the form). An instance occurred in which a contractor received payment for a large quantity of coal deposited at a railway station; the contractor failed to pay the Coal Company and absconded; the Coal Company claimed the coal and maintained their position, as the coal had not been duly *delivered* into possession of Government.
